Various infirmities of old age.
Regain a lot of personal freedom and independence with SUKKAFIXX® products.

History

After going through a hip replacement surgery a few years ago, a man from eastern Switzerland found it repugnant to be dependent on help with dressing and undressing his socks.

He tinkered with PET bottles and other household articles til the prototype of the Socks attractor was completed.

We proudly present you the **SUKKAFIXX®-Socks attractor** which has been improved for several years.

Simultaneously with the Socks attractor the **SUKKAFIXX®-Socks extractor** was developed.

These two products make donning and removal of socks possible independently of assistance.

SUKKAFIXX® products are extremely easy to handle. The crossbow is the symbol for Swiss quality.

The brand name SUKKAFIXX® is the composite of the finnish word “sukka” for sock and “fixx”, which means as much as fix, quick or fast.

“Never trouble another with what you can do yourself.” Thomas Jefferson
